(a) convex A: ∂A and $n(x)$
A
∂A
$N_+^1 \partial A = \{(x, n(x))\}$
(b) non-convex A: ∂A and $n(x)$
A
∂A
$N_+^1 \partial A = \{(x, n(x))\}$
(c) $N_+^1 \partial A$ as a curve in (t, θ)
$N_+^1 \partial A$ in (t, θ)
normal angle $\theta/2\pi$
boundary parameter $t/2\pi$

1.0
(d) $N_+^1 \partial A$ as a curve in (t, θ)
$N_+^1 \partial A$ in (t, θ)
same normal $n = (0, 1)$
normal angle $\theta/2\pi$
boundary parameter $t/2\pi$
